

# Letters to Worldnet Grace Ministries

**May 2005**

To: World Religious Networks

Friends, just a note to congratulate you for airing the Worldnet Grace Ministries broadcasts. My colleagues and I are all devoted agnostic scientists who frankly have had no interest in religion. These Bible studies have captivated us to the point where we never miss the broadcast. We have great respect for the knowledge of science presented on the program and are intrigued by the religious content. Thank you

Dear friend

Words were failing me as I relate the joy of learning of Jesus my savior. Before this I was never knowing of even hearing of this Jesus. I was hoping now to relate same good words to my families.

**China**

These studies of Revelation have changed my life. I was always (I thought) a Christian having been baptized as a child and participating and receiving faithfully the sacraments. After hearing the broadcast I went to your web page and was surprised to see you are American. The web page studies allowed me to be born again. Now excitement and happiness fills my heart.

**Paris, France**

How refreshing to hear a religious programme elucidating the principles of physics with which I, a teacher of same, heartily concur. Your programmes have provided me a spiritual underpinning to my scientific understanding. I look forward to more programmes as I seek to know about God, whom I am assuming more and more to be indeed personal, as you so eloquently proclaim.

**Marseilles, France**

How could one have ever imagined that a professor of Marxism at \_\_\_\_\_ University would renounce this godless philosophy and embrace the God who created all things, and yet also died for my sins, even for my unbelief? Yet this is precisely the case. The person to whom I refer is myself. I doubt I will see you in this life and yet I will see you and thank you personally as we greet one another in heaven.

**Asia**

Good to see the web site back in operation. No doubt you have bitter enemies.

**Athens, Greece**

Congratulations on the one radio broadcast we never miss. We were first drawn because of the entertaining value of the lessons. Then the power of the word came through, we opened our Bible we had never read and have believed in Jesus as our saviour.

**Cyprus**

I can't believe I left London, my church and friends to come to Cyprus. Many times I asked God "why send me to this lonely place?" Now I know I was brought here to be saved. May God bless you.

**Cyprus**

Excellent web site and radio bible study.

**Munich, Germany**

Dear friends,

After hearing and reading so many end times scenarios this is the first that 1) makes sense, 2) is spiritually edifying.

As I travel extensively throughout Europe I am so often thrilled to hear you on many stations. I can sense the definite empowerment of the Holy Spirit combined with an infectious self effacing humor. Thank you for this delightful ministry.

The "Tathames" in England are claiming you as their own???

**Cambridge, England**

All from **China**:

Friend. Grat news abot Jeses so I will not to die. I hope for me famile  
**Hong Kong**

Amid the despair here as we await further bad news from \_\_\_\_\_, your studies have thrilled my soul as I have learned from you that I now belong to the Kingdom of God in Jesus. Thank you for this Good News.

**China**

All from **China**:

Good words finally true words

For me best is esthergirl

Very good information of course every is new to me

Mandarin studys good read many time

good and desirable studies of the esthergirl

so glad to see gd exists ad is

Thank you for opening my eyes to what is happening in Europe. I have been gradually deceived about the European Union as being a good development. Now I know it is of Satan. Thank you for showing me the beginning and the end of Europe. Above all thank you for revealing the way out of the disaster - Jesus my Savior.

**Rome, Italy**

Please address this issue: how can the RCC be the agent of Satan when we hold to the essentials of orthodox theology and Protestantism as a rule does not? Please address on your broadcast. I am not totally against your teaching but would like this clarified.
