L'analisi della chiesa romana è stata sistematica e convincente.

Sono lieto che tu non ti sia limitato alla critica.

Hai presentato la verità del vangelo che ho sentito per la prima volta.

Translation:

The analysis of the Roman church was systematic and convincing.

I am glad that you did not limit yourself to criticism.

You presented the truth of the gospel which I heard for the first time.

Grazie per la tua forte comprensione della Chiesa cattolica romana.

All'inizio è stato doloroso, ma ora è liberatorio.

Ho lasciato la Chiesa e ho abbracciato Gesù.

Translation:

It was painful at first, but now it is freeing.

I have left the church and have embraced Jesus.

Spero che offriate qualche trasmissione in italiano

sulla vostra pagina web e su YouTube !

Translation:

I hope that you will be presenting some broadcasts in Italian

on your web site and your YouTube channel !

The media appearances led me to discover the magnificent Bible origin series.

After the second study I realized the identity of the professor.

I appreciate that he has brought to light the activity of the committees

from a perspective that only he would probably have.

There was a towering figure in the late 18th and early 19th century

named Major Howell Tatum.

He was an engineer who spoke several languages and was a Greek scholar.

His ancestors still live in Normandy.

I have to believe that this professor is of the same family.
